FOR IMMEDIATE RELEASE

August 26th, 2026 **Attention: News Editors**

FIBRE OPTIC CABLE DISRUPTION AFFECTING LICENSING DIVISION SERVICES

The Ministry of Transport and Civil Aviation advises members of the public that services at the Licensing Division are currently being affected by a fibre optic cable disruption involving one of the Ministry's service providers.

The disruption has affected connectivity and, as a result, members of the public may experience delays or difficulty accessing certain Licensing Division services.

The Ministry is currently liaising with the service provider to have the issue resolved and normal services restored as soon as possible.

A further update will be provided as additional information becomes available and progress is made toward the full restoration of services.

The Ministry thanks members of the public for their patience and understanding while the necessary remedial work is undertaken.
